🌐 [LinkedIn](#) 🐙 [GitHub](#) 🌐 [Portfolio](#)

PROFESSIONAL SUMMARY

AI-focused Computer Science undergraduate (CGPA 3.89) and former Software Engineer Intern at JurisTech, with experience across enterprise PHP/SQL backends, RAG systems, AWS-hosted AI (S3, Lambda, Bedrock), and on-device LLMs. Award-winning builder (2nd place, AI Marathon 2026) who ships deployed AI products end-to-end.

TECHNICAL SKILLS

Languages

Python, Java, Kotlin, C++, C#, JavaScript, TypeScript, PHP, SQL, PL/SQL

AI & Machine Learning

RAG, embeddings, vector search, reranking, prompt engineering, local/on-device LLMs, computer vision, evaluation

Infrastructure & Tools

Oracle DB, Git, GitLab, Cloudflare Tunnels, Google AI Studio, LM Studio, OpenClaw

Web & Mobile

Flask, Flutter, Angular, React, Streamlit, HTML/CSS, Android Studio, Joget DX

Cloud & Agentic AI

AWS S3, Lambda, Amazon Bedrock, Chutes AI, agentic workflows, tool-use design

PROFESSIONAL EXPERIENCE

Software Engineer Intern (ORCA Team)

Aug 2025 - Nov 2025

[JurisTech, Kuala Lumpur](#)

- Designed and optimized SQL/PLSQL queries for reporting, validation, and backend workflow support.
- Developed and debugged PHP modules for enterprise loan-origination flows, supporting UAT and production troubleshooting.

Research & Development Assistant

Nov 2024 - Present

[Centre for Technology & Innovation \(CTI\), APU](#)

- Build and maintain internal and student-facing web apps using HTML, CSS, JavaScript, and Joget workflows.
- Support prototyping, Angular-based migration work, and modernization of legacy modules using AI-assisted tools.

Teaching Assistant - Python with AI Basics (Crash Course)

Jul 2025

[Minhas Rupsi at Kashan's Academy, Karachi](#)

- Supported a 4-week Python + AI crash course for 50+ learners through live debugging and Q&A.
- Helped learners progress from Python fundamentals to Gemini-powered chatbot development.

Chief Information Officer (CIO)

Feb 2022 - Feb 2023

[Nixor Creative Studios, Pakistan](#)

- Led IT operations for a 50+ member team, managing website infrastructure and digital assets.
- Directed the relaunch of the Sharkpress online journalism platform.

MAJOR PROJECTS

Minhas Rupsi Learning Platform

Full Stack | RAG AI

minhasrupsi.computer ↗

- Built a full-stack learning platform using Flask and custom APIs across web and mobile.
- Designed a RAG study assistant over notes and past-paper content, covering chunking, embeddings, retrieval, reranking, and deployment.

Jobest: Explainable AI Recruitment Shortlisting System

AI Marathon 2026 | 2nd Place

[AI Orchestration](#) | [Recruiter Workflow](#) | [Chutes AI](#)

- Built an end-to-end recruitment AI workflow that turns job context and candidate inputs into evidence-backed shortlisting recommendations.
- Won 2nd Place / 1st Runner-Up at AI Marathon 2026 plus Best Chutes Implementation special prize.

ReSource AI: Electronics Reuse & DIY Guidance Assistant

AWS Cendekiawan | Top 5 Finalist

[AWS Ecosystem](#) | [Amazon Bedrock](#) | [Sustainability AI](#)

- Built an AWS-hosted assistant using S3, Lambda, and Amazon Bedrock to turn unused electronics into safe, realistic DIY reuse projects.
- Selected as a Top 5 finalist in Sustainability & Environment from 2,500 participants in the AWS Cendekiawan competition.

TTS Hub: Unified Audio Generation Platform

Python | TTS | Watermarking

github.com/MrMystery8/tts-hub ↗

- Built a unified web hub for six Apple Silicon-oriented TTS and voice-cloning stacks.
- Integrated audio provenance workflows covering watermark embedding, attacked-sample generation, and classifier training.

Voice Note Summarizer (On-Device AI)

Flutter | Kotlin | LiteRT-LM

github.com/MrMystery8/vm_summ ↗

- Built a Flutter app with a native Kotlin inference layer running Gemma locally via LiteRT-LM for private, offline processing.
- Added persisted queues, share-to-app ingestion, and prompt presets for summaries and meeting notes.

EDUCATION

Asia Pacific University (APU)

Sep 2023 - Jul 2026 (Expected)

Bachelor of Computer Science (Hons) (Artificial Intelligence)

CGPA: 3.89 - Vice Chancellor's List (2023/24, 2024/25) | 30% Academic Scholarship | Dual Degree with De Montfort University (UK)

Nixor College

2021 - 2023

GCE A-Levels: 4 A*, 1 A (Further Math, Math, CS, Physics, Chemistry).

ACHIEVEMENTS & CERTIFICATIONS

- **AI Marathon 2026:** 2nd Place / 1st Runner-Up for Jobest; Best Chutes Implementation prize.
- **Google Labs Trusted Tester:** Early evaluator for Imagen 2, Whisk Animate, and Veo 2.
- **AI Art Creator (@ai.illusions):** Built an AI art community on Instagram, with **15k+** followers.
- **APU Shark Tank:** Ranked 7th of top 50 | Organizer of APU's Rohit Talwar leadership talk.
- **CEMC Euclid:** Distinction (Top 25% globally) | **Scinnova V:** Grand Runner-Up.
- **Certifications:** Ericsson 5G Pioneers, Hugging Face AI Agents, Carbon Literacy (DMU).
